Madison County Health Department Launches Nurse Hotline

Wampsville, NY – Madison County Department of Health (MCDOH) announced today they are beginning a nurse hotline for people who have questions about the COVID-19 Vaccine.

“There is a lot of information out there about the COVID-19 vaccines. Not all of it is accurate.” says Eric Faisst, the Director of the Madison County Health Department. “We are not here to force people to get vaccinated, but we are here to help educate people. If you have questions, please give us a call. Get the facts, so you can get the shot.”

The COVID-19 Vaccine Nurses Hotline is open Monday through Friday from 8:00 AM to 4:00 PM. If you have questions, simply call 315.366.2770 and ask to talk to a nurse about the COVID-19 vaccine.

Currently, any New Yorker over the age of 16 is eligible to receive a vaccine. To make an appointment at one of Madison County’s clinics, please visit our website. If you have questions or need assistance booking an appointment, please call the Madison County COVID-19 Hotline at 315.366.2770.

Appointments for clinics are encouraged. However, walk-ins will be welcome. Vaccine shots are free and you do not need to have insurance.

For more information, visit the Madison County Health Department website at www.healthymadisoncounty.org.
