April 30, 2021

Dear BCS Community,

Brookfield Central School along with the Central Counties League are excited to get our spring sport’s seasons underway. With ever-changing guidelines regarding COVID protocols, we wanted to communicate the current NYS regulations in regards to spring sports spectators. The current outdoor capacity limit is 200 spectators. Given this larger number, we will not be requiring the pass system for spring contests.

According to the current department of health and the athletics guidelines for spectators, masks and social distancing will be required. Wearing a mask is required unless you are stationary and at least 6 feet away from others outside of your family. In most of our cases, bleachers will not be available, so spectators are encouraged to bring their own chairs or a blanket. Regulations also state that for baseball and softball, spectators are not allowed to enter dugouts or sit within 12 feet of the dugouts or within 6 feet of a perimeter fence.

We appreciate your cooperation in following these basic guidelines. Adherence to these expectations should allow us to continue with our athletic programs and activities here at BCS. Hopefully the weather will cooperate and we can all have a great time outside watching our student-athletes participate in something they enjoy. Thank you very much for your continued support and cooperation.

Sincerely,

Mrs. Sarah Abrams
BCS Athletic Director
